Judge Harbison of the Court of Appeals, in deciding the injunction suit of Mr. James E. Cahill, taxpayer, against Mr. Samuel Perine, Sheriff, "Knew up from this county, says:

First—Under Kentucky Constitution, Section 14, providing that "no corporation in existence at the time of the adoption of the Constitution shall have the benefit of future legislation."

Second—The requirement of the act of May 20, 1892, that shares appointed to protect property against loss shall be paid "out of the county treasury and levy of that year means that they are to be paid out of the general fund, and a designation of the fund in an order of the Fiscal Court levying the tax as the "general claim fund" is sufficient to comply with the Constitution, Section 14, providing that every act enacted by the General Assembly and every ordinance and resolution of any local legislative body levying a tax shall specify the purpose for which such tax is levied.

Third—The fact that the act of May 20, 1892, passed by the Legislature, by the Circuit Judge of guards to protect property against loss does not render it unconstitutional as conferring upon the Circuit Judge other than judicial powers, that officer being a conservator of the peace throughout the commonwealth.

The case was this: Tollgate roads had become prevalent throughout this county;

Officers of the pipes applied to Judge Harbison for guards to protect their property, and he appointed them.

The bills, amounting to some \$5,000, were sent to the Fiscal Court for payment;

And then came the Hon. James E. Cahill and Perine, guardian and Washington with an injunction to prevent Sheriff Perine from paying the guards.

But lawyers W. H. Wadsworth and L. W. Robertson, together with the highest Court in the state, say that the taxpayers must pay for the fun the nation had.

Aunt, the little five-year-old daughter of Mr. and Mrs. Gaither, was standing before a grate, when in some manner her clothes caught fire.

Before the flames could be extinguished the child was horribly burned.

Mr. Gaither was in this city attending Court and he was at once notified.

HILO CAPTURED.

The City Surrendered to Gen. Miller's Forces After a Bombardment.

THE INSURGENTS FIRED THE PLACE.

The Americans, However, Extinguished the Flames Before Much Damage Was Wrought.

The Rebel Loss Was Heavy, But There Was No Casualties on the American Side—Naval Force Rendered Valuable Assistance.

WASHINGTON, Feb. 14.—Shortly before midnight Adj. Gen. Corbin made public the following dispatch from Maj. Gen. Otis reporting the capture of the town of Hilo by the American forces under Gen. Miller on the 11th inst.

MANILA, Feb. 12.—Gen. Miller reported from Hilo that town taken on 11th instant and held by troops. Insurgents given until evening of 11th to surrender, but their hostile actions brought on engagement during the morning. Insurgents fired native portion of town; but little losses to property of foreign inhabitants. No casualties among the United States troops reported.

MANILA, Feb. 14.—The United States forces under Brig. Gen. Miller captured Hilo, capital of the island of Panay and seat of the so-called government of the Visayas federation, on Saturday last after a bombardment.

The rebels set the town on fire before evacuating it; but the American troops extinguished the flames. There were no casualties on the American side.

The United States gunboat Petrel arrived here late Sunday evening with dispatches from Brig. Gen. M. P. Miller to Maj. Gen. Otis, announcing that Hilo had been captured and that the military and naval forces on Saturday morning. Gen. Miller, on receipt of his instructions from Manila, directed native commissioners ashore from the United States transport St. Paul with a communication for the rebel governor of Hilo calling upon him to surrender within a time stated and warning him not to make a demonstration in the interval.

The rebels immediately moved their guns and prepared to defend their position. Thereupon the Petrel fired two warning guns, which immediately opening fire upon her.

The Petrel and the Baltimore then bombarded the town, which the rebels, having set on fire, immediately evacuated. American troops then landed and extinguished the fire in all cases of foreign property, but not before considerable damage had been done.

It is believed that the enemy's loss during the bombardment was heavy, but no American casualties are reported.

WASHINGTON, Feb. 14.—The press dispatch announcing the capture by the American troops under Gen. Miller of Hilo, on the island of Panay, was the first news received in this city of the fall of the second largest city in the Philippines.

The announcement was promptly communicated to the president at the white house, and it was read with gratification. Half an hour later the military intelligence of the fall of the city came in a cable dispatch from Maj. Gen. Otis which Adj. Gen. Corbin promptly authorized to be made public.

There is a feeling of intense satisfaction among such of our officials as are aware of this battle, as considerable apprehension has existed, not however, as to the ability of the Americans to take the place when they decided upon this step, but as to the loss of life which this might incur. The tension between the opposing forces at Hilo has been for some time at the danger point and a collision between them at any time would not have been surprising. It is felt here that Gen. Miller has conducted himself with great discretion in treating with the natives as their attitude has been anything but conciliatory and petty annoyances have been resorted to by them to provoke the Americans.

Cold Weather in the South.

ATLANTA, Ga., Feb. 14.—Advises received here from all over the south tell of raging snowstorms and exceedingly cold weather. Louisiana has a snow storm of unusual dimensions. From Augusta, Ga., comes the word of a five-inch fall of snow. It is still snowing in many portions of Georgia.

A Remarkable Low Temperature in the South—At N. W. Orleans 6 Degrees Above Zero—Severe Weather at Jacksonville, Fla.

WASHINGTON, Feb. 14.—Since Sunday night the Atlantic coast from New York to the Gulf of Mexico has been accompanied by a blizzard and still continues at 8 p. m. from Virginia northward. Accompanying the snow there were northerly winds of hurricane velocity and hurricane warnings were issued at noon on the Atlantic coast from Delaware breakwater to Eastport.

So severe has been this storm that there has been an almost total paralysis of all classes of business in the middle Atlantic states. In the vicinity of Washington this storm has greatly exceeded all previous records.

About 20 inches of snow has fallen since Saturday afternoon and 34 inches during the past eight days. At equal interest with this storm has been the breaking low temperatures of the south. At New Orleans Monday morning the temperature was six degrees above zero, 9 degrees lower than any previous record, while at Jacksonville it was 10 degrees below zero.

The line of freezing temperature in Florida extended through the upper two-thirds of the state, with a minimum of 35 degrees at Tampa. At Key West Monday night the temperature is only 45 degrees, 21 below the normal.

Warnings of this destructive freeze were issued during Saturday and Sunday morning. Warnings of the north-easterly and much colder weather were issued Monday morning for Havana and the Bahamas, the same being indicated for Tuesday morning.

Close Guard Is Being Kept and Nine But Americans and Englishmen Can Pass Our Lines—Insurgents From Hilo Arrived.

MANILA, Feb. 14.—The Filipinos continue to pursue much the same tactics against the Americans as they employed against the Spaniards, firing from their intrenchments at night and resting during the day unless the Americans prevent them from doing so by keeping them on their defensive during the hours of daylight.

The enemy fired a few shots on our left Sunday night, but did no damage. Their splendid successes throughout the week have not caused the Americans to relax their vigilance in the least. On the contrary, our troops are even more alert than ever, if that were possible.

Guards have been posted on all of the roads leading out of the city to prevent the insurgent sympathizers within from joining the enemy or making an attack upon our rear. The sentries have orders to allow no one to pass except Americans and Englishmen. Even native coachmen have been turned back, and American or English visitors to the scenes of the recent battle have been forced to drive their army carriages.

The city continues quiet, and business has been fully resumed. A Spanish prisoner who escaped from the hands of the insurgents reports that Aguinado is at Polo, five miles north of Calocoon, with 3,000 picked men. One hundred and seventy-four natives who left Hilo before the news of the capture of Manila reached our camp, were arrested here Sunday while still on board the ships which brought them.

MANILA, Feb. 14.—The 29th Kansas and the 1st Idaho volunteers have been recalled from the marsh lands north of Malabon, and the former regiment is now intrenched in front of Calocoon. The American lines form a complete circle in length, from the coast north almost to Pasagua, south of Manila.

There has been no change in the disposition of the troops except that the 4th United States cavalry has relieved the 1st Idaho volunteers and a battalion of the 23d infantry has been stationed on the left flank to prevent the rebels sneaking along the beach.

The enemy are busily throwing up intrenchments on their left, sharpshooters in the jungle covering their operations.

Several Americans were wounded in the trenches. Second Lieut. George A. Seaman, of Battery B, Utah artillery, was shot in the leg while standing near his gun. Four men of the 29th Kansas volunteers were wounded slightly. Sunday night Private Britton, Company B, and Private Stevens, Company G, of the 29th Kansas, were wounded.

All the enemy's land at Calocoon has been captured. Last Sunday night and 300 Sunday. The United States cruiser Charleston has moved up the coast and is now off Malabon, the seat of the co-called Filipino government. The number estimated at about eight miles.

WASHINGTON STORM-BOUND.

The Heaviest Snow in Many Years—Business at the Government Buildings Practically Paralyzed.

WASHINGTON, Feb. 14.—The phenomenal weather of the past week culminated Monday in a blizzard-like snow storm which broke all records and left no room for the oldest inhabitant to say the winters were no longer as severe as when he was a boy.

The temperature record was smashed last week when thermometer went to 12 degrees below zero, and a snow record was established when to the heavy fall of the past week 43 inches was added from Saturday night up to 10 o'clock Monday morning.

The hour when the weather bureau made this observation the snow was falling as fast and as heavily as at any time since it began and a high wind was piling it in huge drifts. At noon there was a lull, but it was up whatever in the snow fall.

Business in the departments was almost at a standstill, less than half the force reporting. At noon the treasury department closed its clerks and other employees for the day, and other departments it was expected, would follow suit. The paralysis to all kinds of business was the worst since the fierce storm of March, 1888.

The Potomac is frozen over with six inches and more of ice from headwaters to the bay, and unless broken a flood is quite probable that will inundate the lower sections of the city.

At midnight the snow fall ceased and it became clear. The wind has also subsided and the temperature is falling. The snow is 32 inches deep on
